

DEV DOSHI

AI AUTOMATION & AGENTIC AI SYSTEMS ARCHITECT

doshidev58@gmail.com | +91 96382 22009 | linkedin.com/in/dev-doshi-1ba604247

// PROFILE

I design intelligent automation systems and agentic AI workflows that reason, decide, and act autonomously - helping businesses eliminate manual bottlenecks and scale with AI-driven operations. Clients across the USA, Ireland, India and beyond.

// HIGHLIGHTS

200+ advanced automations shipped | 100+ third-party API integrations | 1500+ hours of system engineering

// SKILLS

Automation Platforms	n8n, Webhooks, REST APIs
AI & LLMs	OpenAI, AI Agents, Classification, Voice AI
Sales & CRM	HubSpot, Apollo, SalesQL, InboxPlus
Data & Docs	Google Workspace, Airtable, Excel, OneDrive, Plex ERP
Content & Media	HeyGen, Cloudinary, LinkedIn API, WhatsApp API

// SELECTED SYSTEMS

AI Voice Lead Qualification & Follow-Up Orchestration Engine

AI voice calls qualify new CRM contacts, document everything, and orchestrate intelligent follow-up.

AI Enrichment Agent

Autonomous data processing system that researches, verifies and enriches every new lead end-to-end.

AI-Powered Autonomous SEO Blog Publishing Engine

Daily pipeline that writes, illustrates, categorizes and publishes SEO articles with zero touch.

AI-Powered Invoice Processing & ERP Matching Engine

Zero-touch AP pipeline: invoice detection, strict extraction, PO matching and ERP updates.

AI-Powered Hiring Intent Intelligence System

Turns LinkedIn hiring signals into scored, enriched decision-makers pushed straight into outbound.

AI-Powered WhatsApp Agent & Lead Management System

Context-aware WhatsApp agent that qualifies leads conversationally and logs structured data.

// BEYOND THE CODE

High-altitude Himalayan trekker - Hampta Pass, Sar Pass and Buran Ghati (15,000 ft).
